

2011 Young Aviator Student Feedback Comments

“The Aviator Program blew me away. What a great week! It could not have been better. Everyone on the staff seemed to have only one goal in mind: help me and my fellow students have the best experience possible.

I enjoyed every aspect of the program. The classes were interesting, informative and fun. The workshop project was a blast. It challenged me but I wouldn't have wanted it any other way. And, the flying? Well, it was just super. At times I couldn't believe that I was in a real airplane cockpit and actually flying that plane. I can't thank everyone enough for such a terrific and unforgettable week.
